

Nederlandse Roadmap Grootchalige Onderzoeksfaciliteiten 2012

Ranking	Titel	Geadviseerd budget(k€)
1	Mouse Clinic for Cancer and Aging research (MCCA)	18.600
2	Proteins@Work; A large-scale proteomics research facility for the life sciences	13.500
3	An ultra-high field NMR facility for the Netherlands (uNMR-NL)	18.500
4	The SAFARI Imaging Spectrometer on the SPICA space observatory; revealing the origins of the universe, from planets to galaxies and beyond.	18.000*
5	High Field Magnet Laboratory An international research facility for Science in High Magnetic Fields in the Netherlands	11.000
6	CLARIAH - Common Lab Research Infrastructure for the Arts and Humanities	1.000
7	Towards a consolidated Dutch Biobanking Hub, integrating the Dutch Biobanking Infrastructure in the European ESFRI Roadmap	1.000
8	The Generations and Gender Programme: A Large-Scale, Longitudinal, Comparative Database for Social Science Analysis	0.500

**divided in two parts namely: a first installment of 7,2M€ for the years 2012-2013, and a second installment of 10,8M€ for the years 2014-2018, this second installment being conditional upon the final approval of the mission by Japan by the end of 2013.*
