

AUDIENCE TRENDS RADIO 2015

MEDIA INTELLIGENCE SERVICE OCTOBER 2015

METHODOLOGY

- Data sources for this report is provided by EBU Members through the Media Intelligence Survey and the GEAR network.
- Year on year evolutions are only based on countries with comparable figures. All those with methodological differences have been excluded.
- Youth age group refers to 15-24 year olds, though some market definitions vary.

AUDIENCE DATA DEFINITIONS

Daily Listening Time (HH:MM)

The average number of minutes of radio that each individual listened per day

AGGREGATED DATA

Daily listening times across markets are averaged to give the <u>average daily</u> <u>listening time</u>

Weekly Reach (000s / %)

Everyone that listened for at least 15 consecutive minutes in an average week, though in some markets definitions vary. Expressed as the total amount of people or as a % of the population

Reach in 000s across markets are added together to give the <u>total reach in 000s</u>

Reach % across markets are averaged to give the <u>average reach in %</u>

Market Share (%)

% of listening based on the total radio-listening audience

Market shares across markets are averaged to give the <u>average market share</u>

of EBU PSM Members saw an **INCREASE** of their market share in 2014

2014 KEY RADIO AUDIENCE TRENDS

- Daily listening time in the EBU Area remained stable on average versus 2013
 From 2013 to 2014, daily listening time decreased by just 1 minute to 2 hours 42 minutes
- In most markets, small declines in listening time persisted in 2014
 Listening time only increased in Hungary and Portugal
- More than 420 million individuals listened to radio in Europe every week
 This figure includes more than 40 million youth
- Weekly reach slightly declined to 84.0% of individuals Young adults weekly reach was very similar (82.5%)
- PSM radio maintained last year's positive trend in terms of reach
 The reach of PSM among youth is nearly 15 points lower than the reach for the whole population
- EBU public service radio achieved an average market share of 36.9%
 Among youth, this figure stands at 22.1%
- Although the average share slightly declined in 2014, more of the markets saw increases
 The evolution of share among EBU public radio is also quite flat in most of the markets
- Over the last 5 years the trends are a stable reach and a slightly declining listening time.
 These trends are more acute among youth.
